STRATEGY BUILT FOR YOUR DISTRICT

Every District Has a Seam. We Find Yours.

Most challengers lose because they run a national campaign in a local race. Lodestar does the opposite. We start with your district's actual numbers, find the county and the voters where the incumbent is soft, and hand you a complete plan to win there. No guesswork, no recycled playbook — a strategy built for your race and no one else's.

HOW WE FOUND THE SEAM IN FLORIDA'S 6TH

When a Republican incumbent looked untouchable in a district his party usually wins by 30, we looked at the county map and found he'd carried the largest county by under two points. That county became the whole strategy. That's the work we do for any race: find the number that changes what's possible, then build the plan around it.

What you get

A complete **Campaign Operating Plan** for your district — the same 15-part blueprint, built on your real data:

- ◆ **District math** — a county-by-county vote goal, not a vibe
- ◆ **Your competitive county** — where the race is actually won
- ◆ **Voter targeting** — exactly who to persuade and turn out
- ◆ **Message architecture** — what to say, to whom
- ◆ **The case against your incumbent** — sourced contrast
- ◆ **A full execution playbook** — mail, field, digital
- ◆ **Fundraising & budget tiers** — what the race costs
- ◆ **Benchmarks** — how you know it's working

How it works

- 1 Tell us your race.** Your district and your opponent. That's all we need to start.
- 2 We analyze it.** We pull your district's real election and voter data and find your path — honestly, whatever it shows.
- 3 You get the plan.** A finished, ready-to-execute strategy in 1–2 weeks, plus a live walkthrough.

OUR HONEST PROMISE

We will tell you the truth about your race. If the path is narrow, we'll show you exactly where it is. If a seat isn't winnable this cycle, we'll say so — before you spend a dollar you can't get back. A plan you can trust is worth more than one that just tells you what you want to hear.

Who this is for

- ◆ First-time challengers taking on an entrenched incumbent
- ◆ Campaigns that want a real plan before they spend
- ◆ Candidates the party establishment is overlooking
- ◆ Races others have written off too early
