How We Work With Campaigns

Lodestar offers two ways to engage. **Strategy products** are fixed-fee deliverables — complete, standalone plans a campaign can act on immediately. **Campaign services** are ongoing engagements for campaigns that want us to help execute. Most clients start with a strategy product and grow into services.

TIER 1 · STRATEGY PRODUCTS — fixed-fee, delivered as finished products

PRODUCT	WHAT IT IS	FIXED FEE
Campaign Operating Plan	The flagship. A complete 15-part blueprint: district math, targeting, message, and full execution playbook.	\$6,500
Volusia Field & Turnout Plan	A deep dive on the county that decides the race: turnout model, zonal targeting, field and VBM operation.	\$3,250
Mail & Message Playbook	A complete 9-piece direct-mail program: creative briefs, headlines, and audience targeting for every drop.	\$3,000
Opposition & Contrast Brief	A sourced contrast framework: the vulnerabilities, the validators, and the discipline to use them well.	\$3,500

HOW THE PRODUCTS FIT TOGETHER

The Campaign Operating Plan is complete on its own. The three deep-dive products go further on the areas that win or lose the race — each stands alone, and any combination can be commissioned. They are companions, not chapters of an unfinished whole.

ENGAGEMENT

Payment in full; the finished product is delivered on receipt. Each includes one revision round.

TURNAROUND

3–5 weeks per product from signed agreement, depending on scope.

BUNDLE

All four strategy products commissioned together: inquire for package pricing.

LODESTAR STRATEGY GROUP | Confidential capabilities & pricing summary. Fees valid for 60 days. All strategy products provide professional guidance and do not guarantee any electoral outcome.

TIER 2 · CAMPAIGN SERVICES — ongoing engagement, available on retention

For campaigns that want a partner through Election Day, Lodestar offers ongoing services. These are scoped per campaign and engaged under a separate agreement — pricing depends on the race, the timeline, and the level of involvement.

SERVICE	WHAT IT COVERS	STRUCTURE
General Consulting Retainer	Ongoing strategic counsel, message discipline, and campaign management support through the cycle.	Monthly
Paid Media & Mail	Planning and placement of mail, digital, and broadcast, coordinated with vendors.	% of media
Voter File & Modeling	Modeled voter file build, targeting universes, and scoring (via data partners).	Project
Polling & Research	District survey work and a full opposition research book (via research partners).	Project

HOW TIER 2 WORKS

Campaign services are an ongoing relationship, not a one-time deliverable. The standard structure is a monthly consulting retainer plus a commission on placed media, with data, polling, and research scoped as projects. Because every race is different, Tier 2 is quoted on engagement after an initial conversation — it is not sold off a fixed price sheet.

How to start

- 1 Start with a strategy product.** Most campaigns begin with the Campaign Operating Plan — it defines the race and the path before any money is spent on execution.
- 2 Go deeper where it matters.** Add the Volusia, Mail, or Opposition products for the areas that decide the seat.
- 3 Engage services when ready.** When the campaign is ready for a partner through Election Day, we scope an ongoing engagement together.

GET STARTED

To purchase a strategy product or discuss an ongoing engagement, contact Lodestar Strategy Group. Strategy products are delivered on payment; ongoing services are scoped and confirmed in a brief written agreement.
